

5/23/2021

Dear Judges ~~Korcoras~~ and Norgle,

Please copy this to the defendants' Attorney(s) whose names —surprisingly at this late date from an emergency petition filed last year — I still don't know. This is for the record, I also want to see all my evidence including video interviews and phone in jail.

I filed an emergency petition for a real reason unlike the State's falsified and misleading motion to Stay Judge Bakalis' decision releasing me AWAY from IDtts conditionally. I was meeting all his conditions plus an additional appointment with drug/alcohol screening at Healthcare Alternative Services in Wheaton. On my voluntary return to Chicago Read I was refused the "Status Quo" the State claimed as

-1-

**FILED**

JUN - 2 2021 MP

THOMAS G. BRUTON  
CLERK, U.S. DISTRICT COURT

their "emergency" to preserve for the "Fruits" of the Merits of their Appeal. Now, I have been attacked Seven times by a Patient named Antoinette Vicari, four times by Patient Jenice Lamplin, and now four times — the last resulting in an injury on my upper/mid back (photographed by Security) when I was shoved by Julia Das who is on a 1:1. The Staff allow her to attack me then reward her with Pop corn.

I just did an injury report with Dr. Mir Obaid whom the nurses refused to call after the incident but charted negatively against me as "provoking" for asking. I was able to see my Chart in which none of her assaults

have been documented. She admitted with Dr. Obaid hearing that she attacked me in my room while I was watching a DVD in my bed claiming she "barely hit" me. I stood up in the corner of my bed next to the wall as she had continued her assault until a ~~(MHT)~~ tech, Branka Hadzimuratovich pulled her off me. Her social worker who had been meeting with her, Monika did not stay with her as she was on 1:1. The night before Julia had chased me around the room after throwing chairs because "I won't talk to her" several times while staff laughed even after I stopped

on the other side of a table to help Staff IDHS claims in their Court reports "intervene"—they do not! Six years without gym time has made me weak and I am 54. Julia is 22! They still did not grab her. I have been attacked over 50 times in the past decade—this is too much. I never hit any of them back or push them off me. When do I get my Constitutional right to defend myself? This is killing me!

Julia calls me "killer" and other names perpetuated by Jim Alm, RN who spreads false rumors even inciting Bradley Gutmann, a patient, to say "if you kill a person when on meds for a year..." which was not my case... it's murder... fake your headaches and take 50 tramadol and kill yourself." None of this is in my

Chart as they almost never  
Chart verbal or physical attacks  
on me only exaggerated and  
falsified notes of me defending  
myself, as if it is "provoking," verbally.  
It is a crime to mislead a court  
to falsely imprison someone!

Julia Das is an "Autistic" patient  
requiring ongoing 1:1's because of  
her daily violence. I heard Dr.  
Anatoliy Pyslar say "She doesn't belong  
here" just like he's written for me.  
Dr. Timothy Cummings said "I don't  
belong here" on January 24<sup>th</sup>, 2020.  
Foucha v. Louisiana dictates "BUT  
NO LONGER." Today, Dr. Mir Obaud  
agreed the system is "rotten" but "only  
judges and lawyers can change that." I'm  
asking for this to end — I can't do it

any more. I'm too old and weak  
with a situation permeated  
with false, inciting rumors  
ostensibly by people with M.D.'s  
and J.D.'s causing me to be ganged  
up on by staff brown-nosing  
(see Judge Bakalis' Sept. 18<sup>th</sup>, 2019  
decision stating that subordinates  
are forced to obey their superiors  
and his October 27<sup>th</sup>, 2020 order  
granting me a hearing on the  
falsification of my records which  
has been ignored by the new trial  
Judge, Daniel Guerin, ~~who~~ who also was  
going to allow my constitutional  
rights to be violated by not allowing  
attorney presence or recording of  
the TME while allowing Joe Lindt,  
a defendant here, to pass on false

Information to the JME. No hearing on falsifications.

Continued detainment of a Person is prohibited by the Constitution unless there is a significant interest. I was acquitted, unfortunately not under the deserved involuntary Intoxication defense for the Seratonic toxicity that caused my psychosis and temporary insanity via medications prescribed by my PCP, but as NGRI. Under Foucha v Louisiana, S Ct and US v. Jones (Michael) S Ct, I can only be detained in a mental hospital for "treatment" which outside people believe is therapeutic but in fact under IDtts is coercive persuasion to obey even if it harms one—"Stick and Carrot." I cannot be detained

if I am no longer mentally ill from what caused my conduct requiring arrest AND dangerous~~ness~~ (reasonably expected to commit serious bodily harm) from it, my "treatment" has to be "reasonably related" to the offense. It is not and it is abusive.

I will never get out while IDHS continues to "set me up" with violent patients expecting me to never defend myself — like I have, always — and an Administration dictating this circus of fraud and abuse. When according to a MISA Counselor who resigned — like Dr. Pyslar did on April 30<sup>th</sup>, 2021 showing me a chart note he wrote that IDHS

Refuses to provide me when he said  
"I shouldn't have put released to  
either State but to Arizona"—  
The "Administration and your  
Case worker are against you.  
Anyone who tries to help you  
is Shut on," will never produce  
due process, equal protection of  
the law or my Constitutional  
rights that flow from my acquittal.  
My own doctor, Anatoliy Pyslar,  
apologized the night he left saying  
"I'm Sorry if I've done anything  
that hurt you."

So, I am requesting an  
Immediate appearance for issues

of representation in this "emergency" situation and to show the federal court that effectually I have exhausted all remedies with a State Court that puts my life at risk by refusing to hear a motion to lift the stay at the Illinois Supreme Court "because the briefing schedule for the appeal had begun" and the bias is so much against me that crimes of fraud and perjury (see statements more voluminous than Jennifer Coleman's in the Toledo case when she was forced to resign in the recent (and past) transcripts ordered by Terry Johnson - after I get them) are allowed and I will never

Get a fair day in DuPage County or the Appellate Court Where the previous State's Attorney, Birkett, now presides as an appellate judge while my Appeal sits and sits and sits there ~~on~~ one issue the State did not even argue — abuse of discretion. The motion to lift the Stay sits too despite it only taking a week to force me back into IDHS custody before I could even respond.

IDHS and the State has used unethical, even criminal tactics to decision shop. In the Spirit

of equity, equal protection and due process that doesn't take a lifetime I need the federal court to intervene, now.

The State is trying to increase the power of an IDHS that would feel okay leading this State into being like North Korea by starting with overturning Foucha v. Louisiana, 5 Ct. on the issue of Personality disorders using false information in my case — Without providing the court with any testing and concealing their test from 2016 showing no personality disorder or mental illness by calling normal defenses to abuse "outstanding

Character pathology" and refusing positive chart notes or forcing doctors to leave my case when they try to help me, to continue this is to continue criminal activity.

Wherefore, I request an immediate hearing on jurisdiction and the falsification of my records with me present in the Court by means of a writ, I would like a discovery demand too,

Respectfully,

Marci M Webber (773) 794-4036/3950

The above is all true under the pains and penalties of perjury. 5/23/2021 3pm
